

Hackathon 3 (Day 1)

Type : General E-commerce.

I would like to sell furniture items which would be affordable, comfortable and trendy with wide variety.

Problems my Marketplace will solve.

→ timely delivery.

→ "No - question asked" return policy

→ Affordable products

→ Best user experience

Target Audience :

→ Home-Decorator / Interior Designer

→ Newlyweds

→ Office workers (professional furniture)

→ Home Owners

Products we offer will be:

→ Office furniture

→ Home furniture (including Sofas and ^{Chairs} ~~etc~~)

→ Designer furniture

→ Study Tables and Book racks.

Set Our Marketplace Apart:

We will provide speed delivery with trust and quality assurance and will provide budget friendly products.
